Description of application.

This webpage is an online E-commerce website store that allows users to add clothing to their cart and checkout with a payment option of their choice, after they browse the available products on the store. By filtering the products with the available search filters.

The store also gives the user information about the store location, and links to social media are provided on the about us page. Such as a link to the YouTube channel.

Home page screenshot is below:

Setting up the Database

Before the website can be launched and operate successfully the MySQL database need to be set up first.

Setup instructions for the Word Press E_commerce Website Database:

Method 1:

Stop any MySQL services that are running.

Copy the e_commerce folder, located in Resources/Database to the following directory:

C:\xampp\mysql\data

phpMuAdmin	🚐 👘 Server: 127.0.0 1									7
0500000	🕞 Databases 📋 SQ	L 🐁 Status 🗉 User accounts	Export	🔒 Import 🥜 Settings	Replication	Ø Variables	E Charsets	Engines	Plugins

	Total: 13	latin1_swedish_ci								
	↑ Check all	With selected: 📆 Drop								
	🔥 Note: Enabling the data	abase statistics here might cause heavy	raffic between the w	veb server and the MySQL ser	ver.					
	Enable statistics									
										5
	Console									

Method 2 (recommended):

Run the SQL script found in MySQL Source Code, but going to the localhost/phpmyadmin.

Then create a database with default settings called e_commerce.

And import the file with the import button at the top of the dashboard.

Setting up the website

For https://localhost/ wordpress_sites /cti_commerce_website

Setup instructions for the Word Press E_commerce Website:

Copy the wordpress_sites folder, located in Resources/Database to the following directory

C:\xampp\htdocs

Before the website can be launched, XAMPP needs to be running properly.
